### Reflecting on the Pathway from DAEP to Home Campus

Answer the questions below to guide you in mapping students' pathways from DAEP back to their home campus. For districts that do not have DAEP, please consider students' returns to their home campus after an out-of-school suspension (OSS).

1. What happens at the DAEP to prepare students for their return to home campus?
2. What happens at the home campus to assist with the re-entry process?
3. What interventions/supports are in place to help prevent recidivism?
4. Based on your reflections and learning today, what could you do to improve your current systems and practices?
